

Bachelor's Level Social Work/Psychology Internship – Case Management Focus

Join our team and gain hands-on experience in case management within a trauma-informed environment. This internship is ideal for students pursuing degrees in Social Work or Psychology who are passionate about supporting survivors and learning practical skills to assist individuals and families in crisis.

Key Responsibilities:

- Shadow and assist case manager/advocates in providing advocacy and support services to clients.
- Help clients access community resources, complete applications, and navigate systems.
- Participate in intake processes, documentation, and follow-up under supervision.
- Observe and learn best practices for safety planning and goal setting.
- Maintain accurate and confidential records in compliance with agency policies.
- Collaborate with staff and interns to ensure a supportive environment for survivors.

Qualifications:

- Enrollment in a bachelor's program in Social Work, Psychology, or a related field.
- Strong communication and organizational skills.
- Ability to maintain confidentiality and demonstrate professionalism.
- Interest in learning trauma-informed care and empowerment-based approaches.
- Ability to pass background checks and adhere to agency policies.
